

TRAVERS SOLAR PROJECT

OPEN HOUSE INVITATION

FEBRUARY 20, 2019

**T R A V E R S
S O L A R P R O J E C T**

FEBRUARY 1, 2019

DEAR STAKEHOLDER:

My name is Dan Tocher and I am the Vice President, Stakeholder Relations for the Travers Solar Project (the Project) being proposed by Greengate Power Corporation (Greengate). As part of our public consultation process, you have been identified as a stakeholder that may have an interest in the Project.

PROJECT OVERVIEW

Greengate is developing the 400 megawatt alternating current (MW_{ac}) Project in your area. The Project is located 8 kilometers south west of the Village of Lomond in Vulcan County, Alberta and is being developed on approximately 4,700 acres of land on privately owned, cultivated, and grazing land.

Greengate is committed to engaging landowners, public stakeholders, and members of the local community, and we look forward to starting this dialogue with you over the coming months. Public consultation is a very important element in the development process and your attendance at the open house, as outlined in this letter, and your participation and input is essential to the success of the Project.

We encourage you to attend our open house to learn about the Project and to ask questions about the Project design, environmental evaluation, visual simulations, noise impact assessment, and glare study.

Greengate would like to invite you to its open house on:

Wednesday, February 20, 2019 7:00pm - 10:00pm

Vulcan Lodge Hall

231 Centre St, Vulcan, Alberta

Refreshments will be served

This is an opportunity for you, the stakeholder, to preview design details of the proposed Project. You will also have the opportunity to meet and ask questions to Greengate's development team and their strategic consultants on project design, impacts and benefits.

Thank for your support and we look forward to meeting you and hearing from you.

Sincerely,

Dan Tocher | Vice President, Stakeholder Relations
